

# e-creation

just that little bit sharper

**Welcome to E-creation's augmented reality demonstration.**

Use this glyph to interact with [www.augmentedrealitydesign.com](http://www.augmentedrealitydesign.com) and see a live Twitter feed on a virtual monitor at the tip of your hands. Augmented reality can be used in a wide variety of marketing & commercial applications and has already been used on mobile phones, sneakers, food packaging, greetings cards, brochures, business cards & even tattoos.
